General Information .....

*new design for the two stair windows for Westminster Presbyterian Church.*

*We have symbolized the I.H.C. monogram of Christ here, and it is our thought to use the PC or Chi-Rho monogram in a similar manner for the other window, alternating the color with blue instead of ruby.*

*We feel that these windows should be kept very light and brilliant, admitting an abundance of illumination for the stairs.*

For addresses of those to be notified as window progresses, see other side.
