General Information Upper Saint Michael in one, according to the medal which Father MacPherson left; and in the other the Seal of the Diocese. (Lower).

We have completed our studies of the design for your oval windows in the rectory, and are sending you the rough color sketches herewith.

As planned, we have devoted them to Saint Michael and the Diocesan Arms.

We think they will work out beautifully in the actual glass, with their colorful central medallions and borders, admitting an abundance of illumination through their silvery foliated fields.

Note: Wrong Coat of arms used in the design. Be sure we use the Diocesan seal, as we did in the entrance window, the red cross of Michael and the four springs representing Springfield.

MR. LARKIN WILL HAVE FRAMES MADE AND SENT HERE WHEN WINDOWS ARE READY; NOTIFY HIM WE ARE SHIPPING THEM AND THEY WILL TAKE CARE OF THEM. sash are here.
