To be devoted to **The Transfiguration.**

See window we are now making for **northeast side.**

On the Epistle side, the third window from the chancel is devoted to the Transfiguration with Our Lord in garments of glistering white at the center, the prophets Elias and Moses at the left, and the three waking and anased apostles Peter, James and John at the right.

Another way of composing this theme is shown in the photograph of our window in the Congregational Church, Newton Centre, giving the apostles less importance. If you prefer this we shall be glad to change the rough sketch.
