Inscription

Design wanted Staging

Templates Blueprints

General Information It is tentatively suggested that they be devoted to Saint Raphael through the Book of Tobias. (Another plan O.E.S. thought of for the side windows is the theme used in the Baltimore Cathedral; that is, the Seasons or Feasts. - Not mentioned to Architect.)

Although the Church is modernistic, he evidently doesn't want the glass to go modernistic. He thinks glass such as the Deerfield windows can go at any type.
