General Information Saint Cecilia in the center panel, and in side panels - an angel with a harp or lyra, and an angel with an ancient form of musical instrument.

Mrs. Bedal, for whom the window will be a memorial, was very fond of music.

This window goes over the Solomon aisle window, Note that this window will be the simpler treatment - like the St. Michael window.

It is designed in harmony with the others we have made.

As planned, Saint Cecilia is the dominant figure in the center panel. She holds her traditional symbol, the organ, and is accompanied by Angels bearing ancient musical instruments, - a harp, and lyre or dulcimer.

We visualize how beautifully this will work out in the color and light of the actual glass, and we are eager to develop it to continue the colorful enrichment of your church.
