General Information There are 5 doorlights that Dr. Taylor would like to have glass for - just sheets of colored glass. The two front doors are 7 1/4" wide by 10 3/4" high, sight - two of these.

Then there are two side doors near the chancel, with doorlights 15 3/4" wide by 26 1/4" high, sight.

Then there is a side door at the Baptistry, 21 3/4" wide by 26 1/4" high. They all have 1 1/2" rebates. They are all wood, but "I don't know how deep the rebate under that is, - I think we can allow 1/2" for lead.

Dr. Taylor wants sheets of colored glass in these (clear now) "to harmonize with the windows."
