General Information To be Saint Martha, holding a vase of flowers, designed in the same manner as our earlier window in same room. The earlier panel is the extreme left one of the group of four. This window to be a memorial to the President of the Altar Guild.

We have completed our study of the design for the Altar Guild sacristy window to be a memorial to the former president of the guild.

Designed in harmony with the earlier one, it is devoted to Saint Martha. She holds a vase of flowers to decorate the altar. A space for the memorial inscription is indicated below. Will this be similar to the other, that is, the name with dates, and "Altar Guild President"?

The rough sketch will be worked out in full detail in the actual glass, as in the first window.
