.....

Exposure North. Gets quite a shaded light on account of trees outside...... Footage 24'

Inscription.....

..... (2 weeks).

Design wanted Before Sept. 5, 1958...... Staging.....

Templates..... Blueprints.....

General Information To follow the plan of the windows at palace at Versailles, with colorful borders framing fields of clear glass. (See color print.) (This now has been changed - see notes on sheet 4134 - report of Sept. 30 meeting.)

12/2/58 - Make drawing of circle window to show them.

Mr. Svensen also has the color sketch for the north rose over the reredos. It is designed in harmony with the other windows, but with a more colorful center. We thought that deeper color might well be appropriate in its position in the Chapel.

The tracing paper cover shows its relation to the upper part of the reredos.
