General Information Father Filkins writes: "...I had in mind that just the figure in the center of each window (Bishop, Priest, Deacon would be in color. The surrounding glass could be leaded random pieces in frosted white. This should keep the cost down considerably.... Deacon - In Dalmatic, over alb and amice Priest - in chasuble, maniple and stole over a white alb and amice. Bishop - Cope and mitre, over white alb and amice, with stole hanging straight down (not crossed as the priests would be). The Eucharistic vestments of all three should match in pattern as though they were the three sacred Ministers of the Mass. The order of setting them is should be from left to right - Deacon, Priest, Bishop...."
