General Information

Be sure to use pure rich rubies and blues. See design made for the first window - Christ and the Children. These windows to have a

palette like that of the State Street Church, Portland - fields in rotated pattern with an abundance of fine, pure blue, accenting the warm passages of

ruby and gold.

Peter and the establishment of the church on "this rock"

Peter, with his patriarchal staff, stands at the center, with the traditional crossed keys below. At the left, he and his brother Andrew are represented as fishermen when called by Jesus to be fishers of men; and opposite, Saint Peter and Saint John stand at the gate called beautiful, with the lame man whom Peter healed.

The symbols are Saint Andrew's diagonal cross and Saint John's chalice and serpent.
