Dear Mr. Rothang:

We have studied the design for your window in Saint John's Church and are sending you the rough color sketch.

Saint John's traditional Eagle as Evangelist is the dominant symbol, with a colorful ruby border and a lighter field.

The rosettes and small accents provide excellent opportunity for chunks and nuggets of glass, echoing those in the Saint Christopher panel below.

We visualize how effectively this window will take its place and we are eager to develop it in the actual glass. I think we can undertake to make and install it at a cost of three hundred and sixty dollars.

With cordial greetings,

Sincerely,
