General Information

"Gethsemane" to "balance" "Good Shepherd"
(A larger window in between)

We have studied the design for your window devoted to Our Lord in the Garden of Gethsemane and are sending you the color sketch, herewith.

He kneels in prayer before rays of Divine light from heaven. Of course, at the small scale we cannot produce an accurate copy of the Sallman head of Christ, but we have a good reproduction of it for the full size working drawing and the actual glass. This design will harmonize beautifully with the balancing window nearest the chancel.
