Blueprints.....

General Information They have 17 windows in the basement Chapel for which Hope is making metal frames - 13 of one size in the main church, and two narrower ones in side transepts, and two wider ones in the Sacristy.

Monsignor McNulty likes the idea of the Laconia and Fairhaven windows, except he wants more color in the fields.

Make rough sketches, one with symbol on the upper part, and another with a figure of a saint, as in the Saint Mary's, Fall River, only a little larger and lower.

Get range of cost to him by Friday of this week - February 28, 1964 - either telephone or write.

The Monsignor saw some Lady Chapel windows in the Sacred Heart Church, Malden Square that he liked.

Footage: 13 windows - 34' each - 442' in the 13

2 " - 38' each - 56' in the 2.

2 " - 17' each - 34' in the 2.

Total footage. 532 feet.
