Inscription

Design wanted **soon.**

Staging

Templates

Blueprints

General Information **We are to complete the Evangelists, with Matthew, Luke and John in the group where Saint Mark is now in one panel.**

The figures can scale somewhat larger in spite of the small Saint Mark figure.

To be the type of the Bethel, Connecticut window - without symbol. We should more or less keep in mind the scale of the other windows, especially the two pair of English windows in the northwest corner.

See slide of the Saint Mark window.

Also see floor plan showing position - on sheet #4777
