Exposure..... Footage.....

Inscription.....

Design wanted..... Staging.....

Rather deep, rich blues and reds; greens in the background.

Templates..... Figure, 40-1/2" Blueprints.....

General Information..... The Good Samaritan

We have enjoyed our study of the design for the Good Samaritan window and are sending you the rough color sketch, herewith.

The kind traveler comes to the aid of the unfortunate man who has fallen among thieves. A cloth and a jar of ointment are shown in the foreground. The Good Samaritan's donkey waits to carry the injured man to the inn shown at the top, while the Priest and Levite travel the road to it, and the thieves flee beyond.

Kneeling Angels in attitude of prayer support the inscription panel at the base, while the text is designed in the background, - "A certain samaritan had compassion on him." It is designed at an angle, recalling dominant lines of the neighboring window. If you prefer, it could be somewhat more toward the horizontal.

Designed in this manner, the window can be made at a cost of fourteen hundred dollars (\$1400), including its installation in the church. The cost could be reduced by a hundred dollars if the kneeling angels, the donkey, and the thieves were omitted, but we feel they do add considerably to the significance and effectiveness of the story.
