Architect The size of the glass area into rebate is 30 5/8" by 63 5/8", and the sight size of glass is 30 1/16" by 63". These are neat measurements and no allowance should be made. The rebate to receive glass and putty is 7/16". The rebate between full and sight sizes does not quite work out at 7/16", but I am sure it is near enough, per OES.

To be devoted to a Musical theme. Short Aisle Window - Psalm 150 - King David & Harp

We have prepared a rough sketch representing David, sweet singer of Israel, with his harp and crowned as King. David is to be a young man, but still with the King's crown.

The text is from the 150th Psalm, "Praise him with the sound of the trumpet: praise him with the psaltery and harp." Other good texts are found in the 100th Psalm.

The enrichment of the field is designed in a manner similar to your other windows, with musical instruments, trumpets and bells; the bells continuing as the border motif. At the top is the small six pointed Star of David.
